

**Cleeve Park School**  
A Specialist Engineering College  
Head Teacher: Mr J F Hodkinson BSc Econ (Hons)

## **Welcome to Cleeve Park School from the Head Teacher**

Dear Parents,

Welcome to Cleeve Park School. We are a forward looking 11-18 co-educational school founded on the expectation of good teaching, firm discipline and high standards. We see our school as a happy and caring place in which every child can work, grow and achieve their best. We want to be the best school for your child and we work hard to ensure that this is the case.

To this end our aims are embodied in four core values:

**A positive ethos** – firm discipline and high expectations matched by care and consideration for others and the recognition of all types of achievement.

**Learning for life** – to prepare all to make the very most of the modern world and the challenges that life can present.

**Challenge** – to challenge all to achieve the highest standard they can and help them to cope with and thrive on that challenge.

**Support** – to support each pupil to achieve more than they ever thought possible, broaden their horizons, have the highest aspirations for their future and the confidence to achieve.

As concerned parents you will want to be reassured that we are capable of meeting our aims. Whilst the school prospectus gives a flavour of what we offer, the best way to experience this is to meet our staff and see our young people at work. You are therefore very welcome to visit the school and see us in action.

We believe that our school is not only a centre for learning but a community based on the partnership between staff, pupils and parents and so we look forward to working with you over the years to come. Together we can achieve much for your child.
